IN THE EVENT OF EMERGENCIES:

- The Hotel operates a system of PEEPs (Personal Emergency Evacuation Plans). On check-in to the Hotel, you will be offered the opportunity to discuss and outline any special requirements or assistance you may need should an evacuation of the Hotel be necessary as a result of a fire or other emergency.
- You will be given a copy of this Emergency Evacuation Plan and we will keep a copy for our Hotel Fire Team to refer to in case of an evacuation taking place during your stay.
- The Plan will specify which of our Team Members will be designated to assist you, should you require this.
- Should you have any concerns regarding emergency evacuations, please speak to the Duty Manager.
- If a member of staff cannot reach your room, carefully open the door and check your route to the safety point. If it is blocked or if there is smoke, go back into your room and close the door. The door to your room is fire resistant for one hour. As soon as the fire brigade arrives, we will tell them your room number.
- Do not block the door with anything, including towels, as this will prevent the fire brigade from entering your room.
- Do not open any windows as this can increase the air circulating, and increase smoke and flames.
- If the fire is in your room, get out and close the door behind you, breaking a fire alarm if possible on your way out.
- We test the emergency alarms on a weekly basis. Signage in the lobby and lifts the day before will indicate when the test is due. The siren will sound for no more than one minute.
